Hi Cynthia –

I've just received DEQ's messages. I committed that we would review and respond with any updated messaging that we have. (The EPA messages that are included are our key messages that I sent to DEQ when we called local stakeholders informing them of the public meeting and gauging their interest in having a one-on-one meeting with the agencies that day.)

Would you be willing to review DEQ's messages and alter our messages as you see fit? If you make any alterations, could you update them in the comm strat as well?

I'd be happy to discuss the messages if you'd like. I'll be in the office today, tomorrow and next Wednesday.

Thanks,  
Rob

Hi All,

Attached are DEQ's talking points/messaging. I added the messaging you sent us before to the bottom and you will see some changes due to new circumstances for you to approve/change. Additionally there are some questions for you to answer, etc. Hopefully it is self-explanatory but let me know if you have any questions.

Thanks!

*Jeni Garcin-Flatow*
